

Урок 4. Признаки равенства треугольников

Теория

Признаки равенства

Сумма углов в треугольнике

Площадь треугольника

$$1) S = \frac{1}{2} a h_a;$$

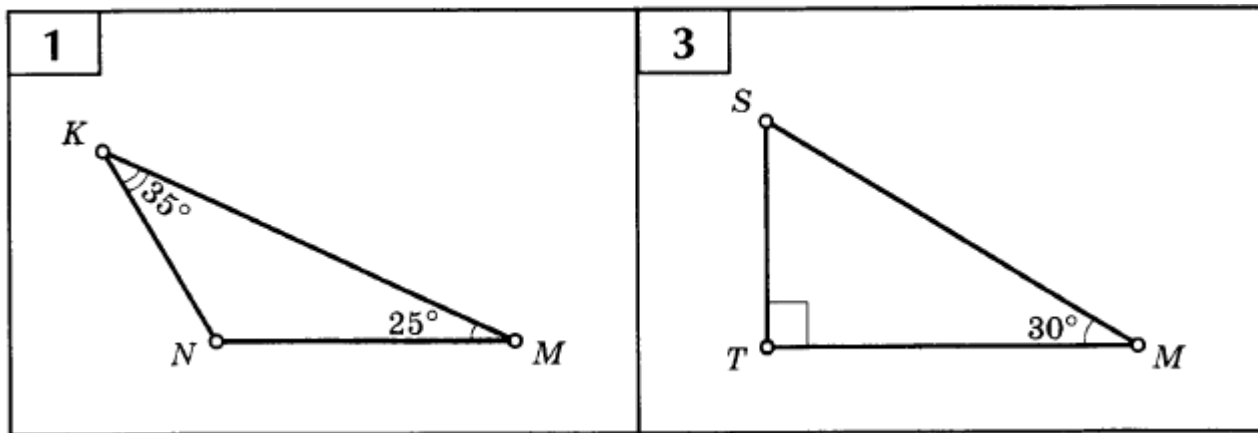

$$2) S = \frac{1}{2} a b \sin \gamma;$$

$$3) S = \sqrt{p(p-a)(p-b)(p-c)} \text{ (формула Герона);}$$

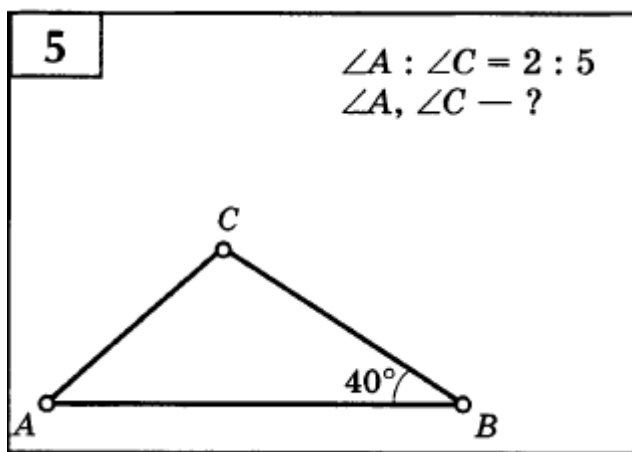

Упражнения

Углы в треугольнике

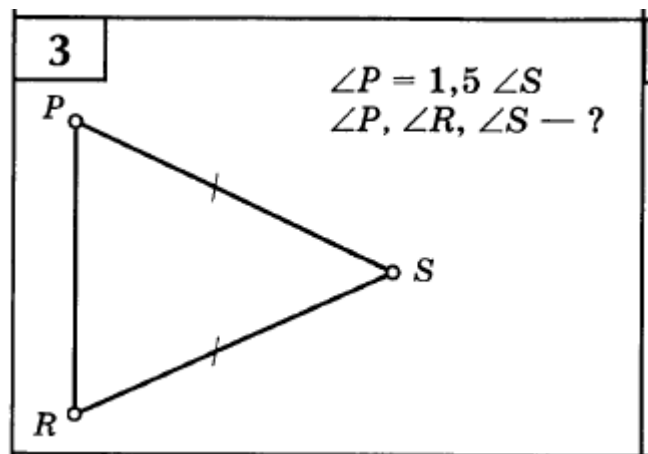

1, 2

3

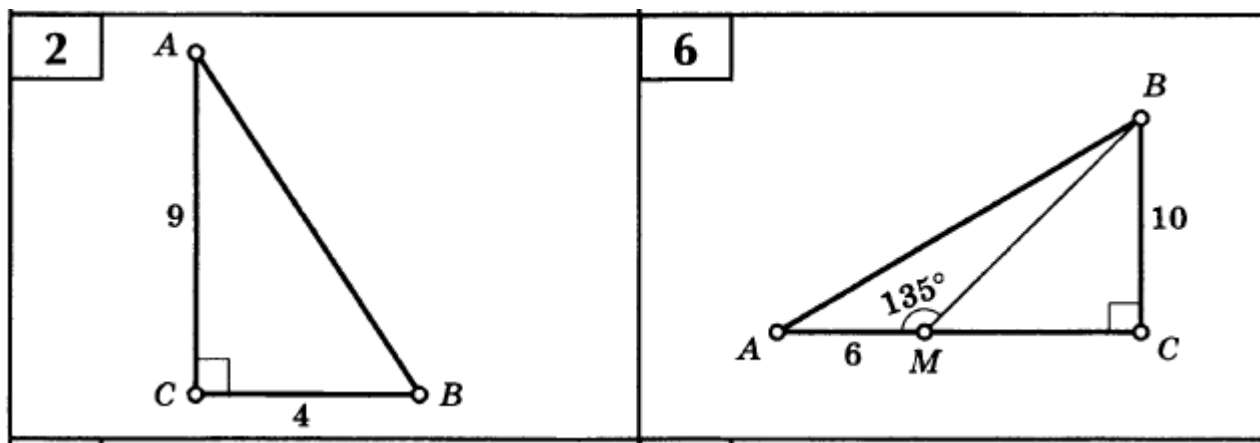

4

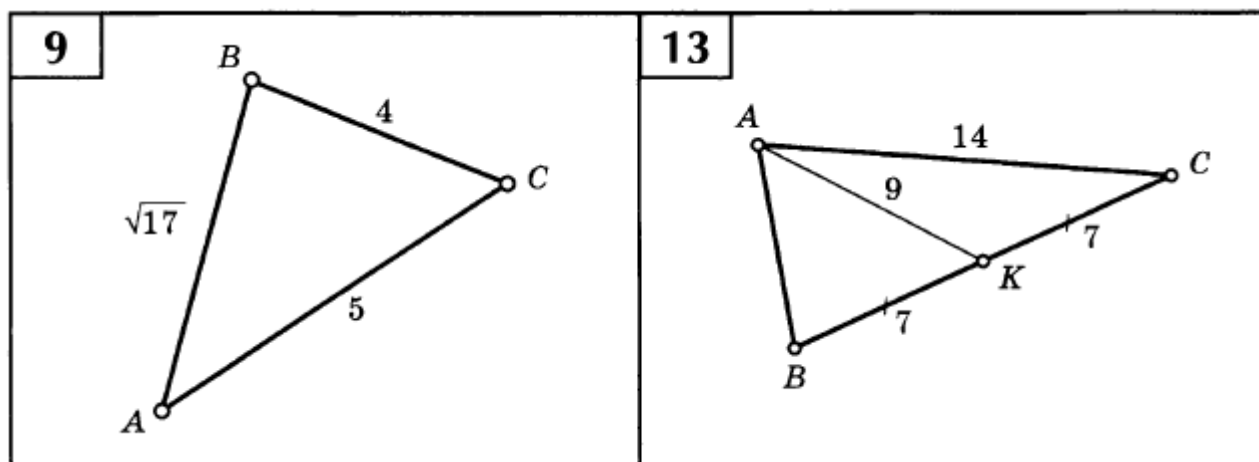

Площадь треугольника

5, 6

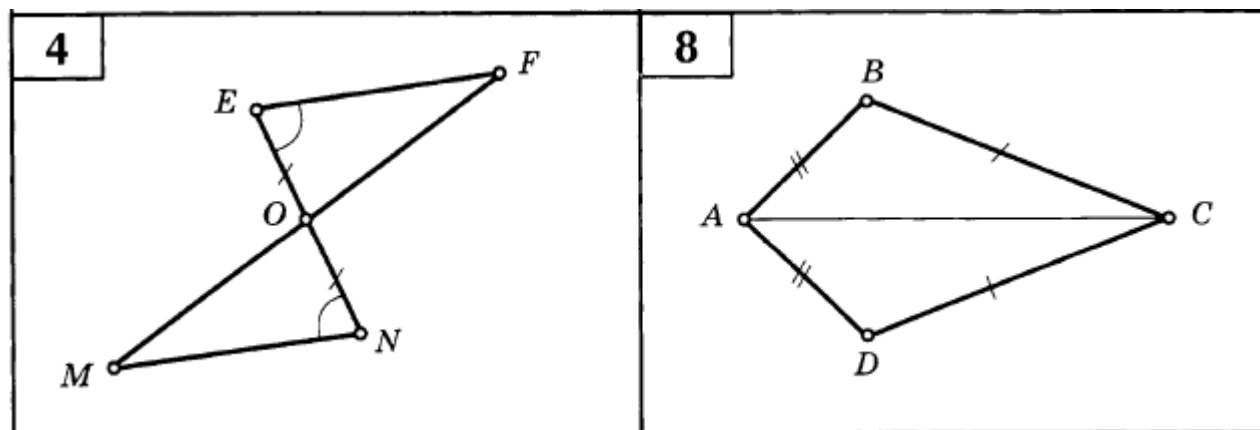

7, 8

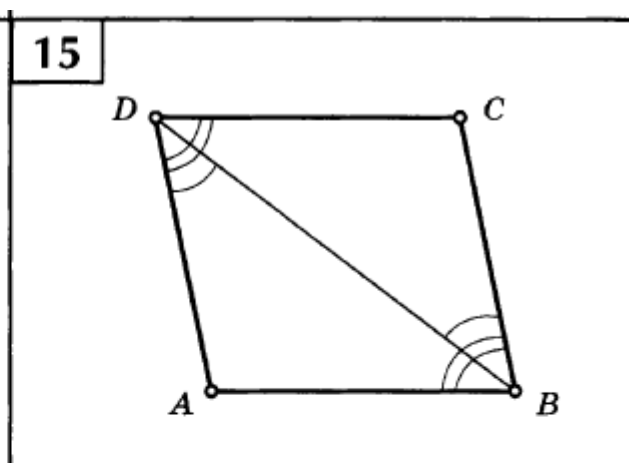

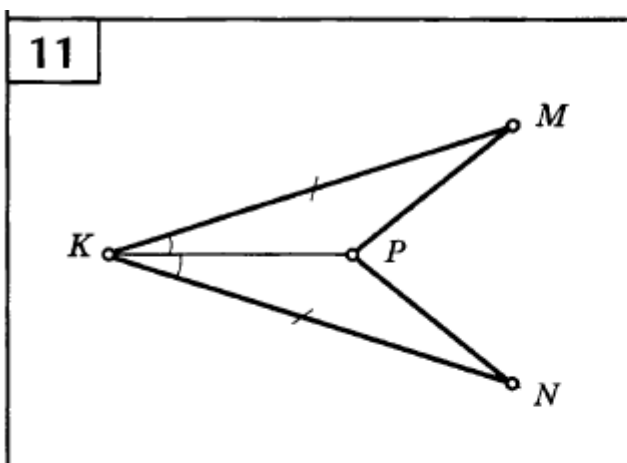

Смешанные задачи на признаки равенства

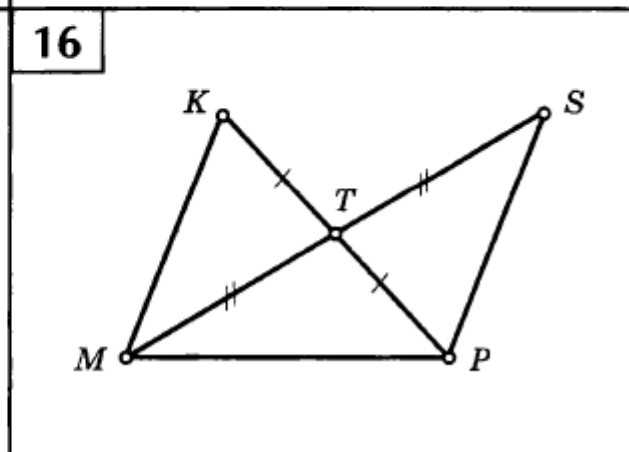

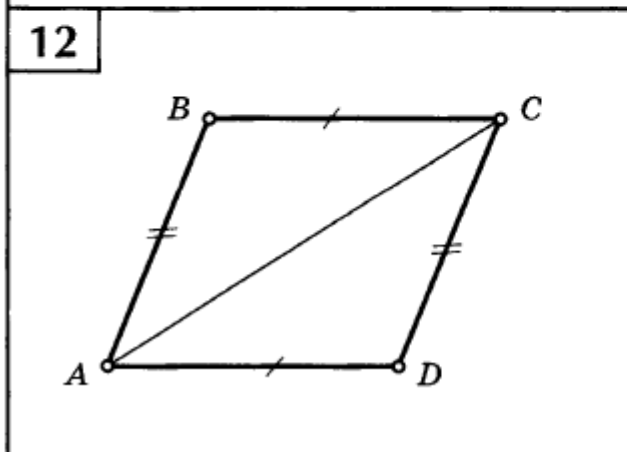

9, 10

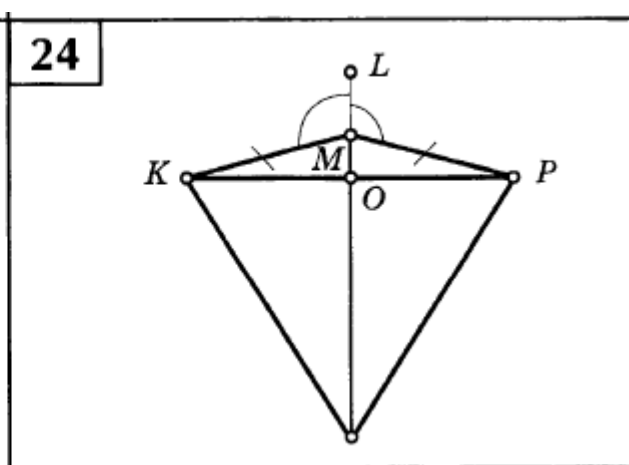

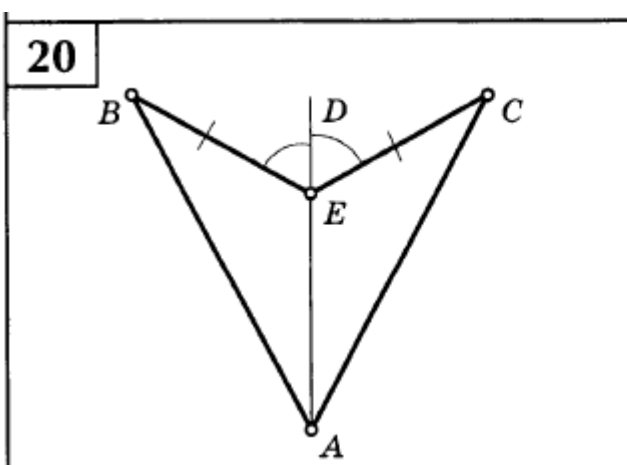

11, 12

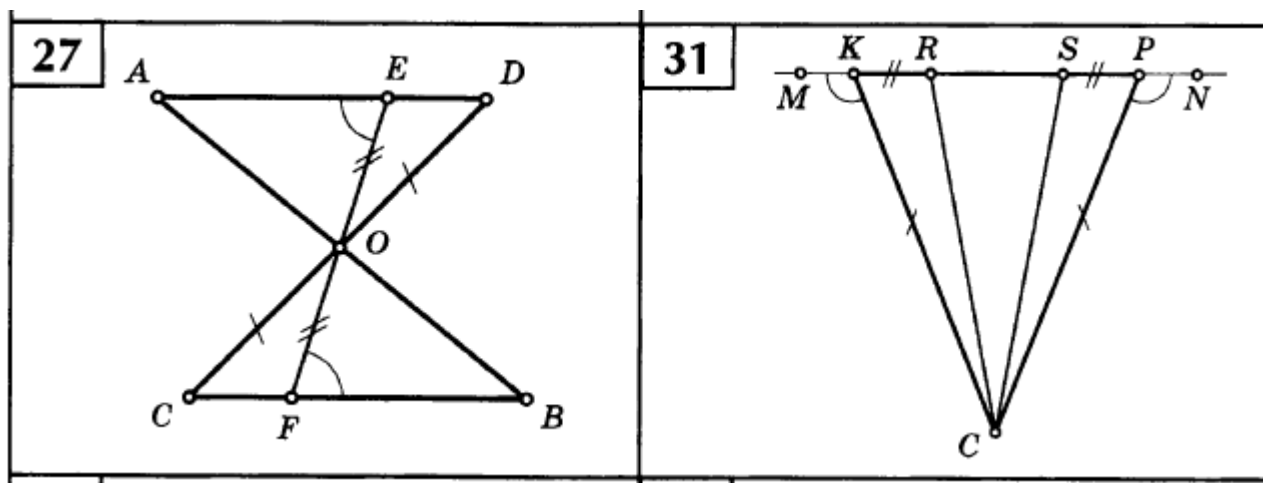

13, 14

15, 16

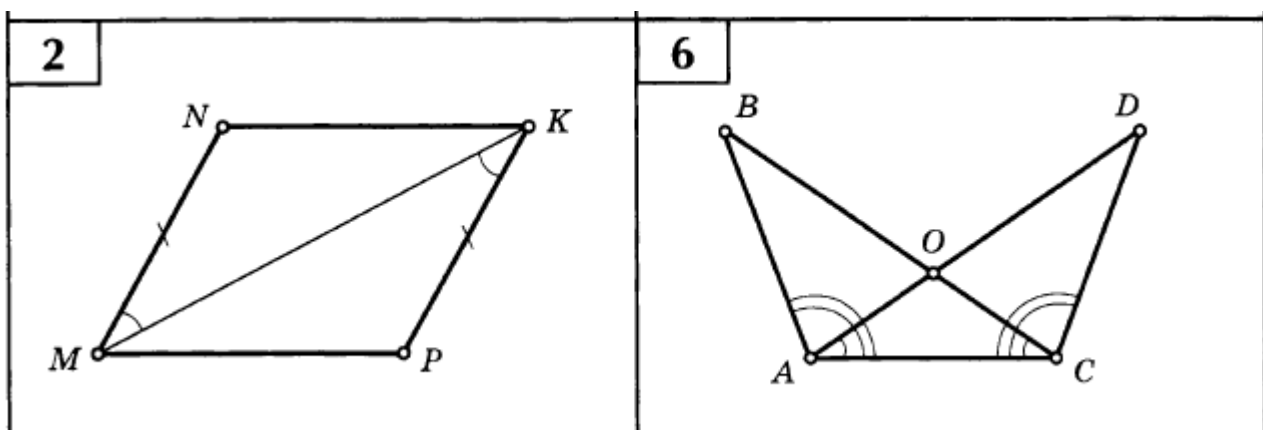

17, 18

Домашнее задание

1, 2

3, 4
